### 1. Course Description and Prerequisites

Generalist Social Work Practice with microsystems. Knowledge and methods to bring about planned change with individuals and client-identified family systems practice in interpersonal skills. Students must have completed PSY 101, SOC 101, and BIOL 111 or permission of the program chairperson. Course limited to majors.

2. Course Purpose

The purpose of SOWK 487 is to teach practical skills that students can take with them in working with groups and families. It focuses on both therapeutic groups and task groups. Most of the weeks there are opportunities for students to practice facilitating groups with their classmates and or various group activities that students can take with them.

### 3. Relationship to Other Sequences and Other Courses

SOWK 487 is a practice class focused on teaching skills for effecting changes in clients in groups and families. During a student's time in the social work program, there are three theories of practice courses. Each one focuses on a different level of interaction. First starting with individuals, then SOWK 487 Theories of Practice II looks at working with groups and finally SOWK 488 looks at working with communities and a macro prospective.
